

NAPHA PART PERUVIAN REGISTRY RULES & REQUIREMENTS

REGISTRATION REQUIREMENTS

updated Mar. 1, 2011

Completed application: (front and back) for registration with signatures of appropriate, recorded owners.

Photographs: (1) Full profile/side view of right side; (2) Full profile/side view of left side; (3) Full face/frontal view; and (4) Full rear view. All four legs must be seen from both sides; markings on face must be visible. All photos should include **all parts** of the animal available in that view (ears to hooves or nose to tail inclusive) and be unobstructed by any other object or animal. Additional photos should be submitted to verify markings not seen in the standard four photos (i.e., white on belly, markings under mane area, etc). Label each photo with first choice of name and owner's name on the back. Photos must be a minimum of 3" x 5" and a maximum of 4 x 6". We accept digital photos if printed on quality photographic paper. We do not accept color copy photos.

If the sire is Peruvian or Part Peruvian, he must be registered as a Breeding stallion, see NAPHA rules. A copy of the certificate of registration (both sides) of any registered parent is required. This applies to non-Peruvians as well.

DNA typing and Verification of parentage with the Purebred Peruvian parent, is required prior to the registration of a horse in the Part-Blood Registry. Verification of the non-Peruvian horse need not be verified. In such cases, only the name of the horse will be listed on the papers.

A Stallion Report, listing the breeding, must be properly filed with NAPHA or another breed registry prior to the birth of the foal. If filed with another registry, a copy must be sent directly from that registry to the PP-BR. If a Stallion Report has not been filed, parental verification is required. To be eligible for parental verification, both the sire & dam must also have a DNA record, which may require testing of the sire &/or dam.

Examples:

Peruvian Paso Stallion and Quarter Horse Mare. A stallion report listing the breeding in question must be filed with NAPHA or PHAC prior to January 10th following breeding to verify the parentage of the foal. If that is not done, DNA typing of sire, dam and foal will be required for Parental Verification.

Quarter Horse Stallion and Peruvian Paso Mare. A stallion report must be filed with the NAPHA or AQHA listing the breeding in question prior to January 10th following breeding to verify the parentage of the foal. If filed with the AQHA, the AQHA must send a copy directly from its office to the PP-BR. If that is not done, DNA typing of sire, dam and foal will be required for Parental Verification.

MEMBERSHIP

Associate	\$ 70	calendar year – recorded owner of a registered Peruvian
Aficionado	\$ 50	calendar year – only available to those that do not own a registered Peruvian
Junior	\$ 25	calendar year – for those 17 years of age and younger
